

Good evening Mr.Lim, Ms Tan, Mrs Tan, parents, teachers and fellow Peicaians. It is an honoured be standing here to deliver my last speech as the President of the student body.

First, let me talk about this year's theme.

The theme of our 9th Student Leaders' Investiture is ***"From Passion To Action"*** and I feel that this theme is close to my heart because I would not be here delivering my speech if I did not have the passion to serve and make a difference to others.

Like what I have mentioned in the video earlier, I chose to take on the challenges of being a leader because I was impressed by how my senior leaders devotedly served others when I was in Secondary one. It was then that I knew my passion is to serve others. Upon seeing my seniors, I dreamt of a leader who makes a difference to others and aspired to inspire others just like how my seniors inspired me. But I did not let my dream remain a dream. I stepped up and decided to take up the challenges of being a leader. So, right now, I can confidently say that I have made the fullest use of my passion and transformed it into action in serving and making a difference to others.

Indeed, my leadership journey had not been entirely a bed of roses. Disagreements amongst a group of people are part and parcel of life. At times, I have had disagreements with my committee members and sometimes the challenges were so difficult to overcome that they had me at the verge of giving up. However, I do believe that every cloud has a silver lining. Even those disagreements amongst the 12 of us had a bright side to it. It was through those arguments that we had created an inseparable bond between us. Sometimes, even when my committee members seem to be the ones who make me feel like giving up, they are ultimately my support who get me back up on my feet and strengthen me to become a better leader of tomorrow.

There was an advice from a senior of mine and it goes like this "The ultimate failure is the failure to continue to try", and I definitely agree with this. So, for the incoming executive committee, my advice to you is this. Whenever you face challenges and everything seems to be falling apart, do not give up. The real moment of failure is the moment you give up. If you feel like there is no one by your side, you are definitely wrong. This is because there will at least be 11 people who have your back, like how my committee members support one another and I know, no matter what I do, those 11 members will be there for me.

Today, the 7<sup>th</sup> of April 2017 marks the 349th day that we ,the 8<sup>th</sup> executive committee, are together. We have been working together for over 300 days now. 300, the number itself may seem big, but I still remember clearly the very first moment I delivered my first presidential speech and many other events that I have gone through with my committee members for the past one year. Throughout these 300 days, the 11 members and I have learnt many meaningful lessons and have grown up a lot from where we started. Perhaps it is the shortest period of time that we have grown up the most. I can firmly said that even if our exco journey has ended, our friendship would not. I am very grateful that what I achieved from this 300 days is not only the countless in valuable lessons that I picked up, but also 11 friends whom I can trust and rely on.

Although today signifies the end of my leadership journey in Peicai Secondary School, all it is certainly not the end of my leadership journey in life. Although, tomorrow, there will be no

Thanathorn as the 8<sup>th</sup> President of the Student Leader Executive committee anymore, I can confidently say that I will continue to compassionately serve others like what I said in the video "Leadership is action, not position".

To end of my speech I would like to express my gratitude to a certain group of people.

Firstly, I would like to thank all the Student Leadership teachers, both past and present, for their continuous support in everything I have done, not only when I am in the executive committee but throughout the three years of my leadership journey.

I would also like to thank all the leaders who played a part in the Student Leader events when my exco was in-charge.

Next, I would like to specially thank my fellow secondary 4 leaders who have been on the leadership journey with me since we were in Secondary One.

Last but not the least; I would like to sincerely thank the 11 members of the 8<sup>th</sup> Student Leader Executive Committee. Junglin, Marshyll, Corina, Abigail, Yeo Yi, Adeline, Saint, Kodi, Ryan, Kean and Marcel for their exceptional amount of hard work and effort for the past 300 days. All of you have made this journey enjoyable and I am blessed to have a part of this team.

In the 8th executive committee, we might be an ordinary individuals, but together, we are extraordinary team.

Thank you very much and have a great evening ahead.
