

## **Presidential Rally Speech 2016**

We make the Difference. This is our school motto. My presence here today, up on this stage, is to make a difference to our school.

Good morning Mr. Lim, Ms. Ong, Mrs. Tan, teachers and fellow Peicaians. I am Thanathorn Sukprasert from class 3E, running for the upcoming presidential election.

Serving the school as a leader has always been my passion. My devotion towards the school has grown ever since I made the decision to join the student leadership body 2 years ago. With all the hard work, effort, and dedication that I have put in over the years, I believe that running for the Presidential position is a good opportunity for me to make use of my passion to play a bigger part in serving and making a positive difference to the school. Of course, this can only be done with the help of the executive committee and the other student leaders.

In the past 2 years in Peicai, I have worked under many different leaders with varying leadership styles. Some delegate all the work, while others do everything themselves. To me, it is almost impossible for us to be the best in everything. Hence, I feel that it is crucial to be able to tap on the different expertise of my team members. In order to do this, the barrier between the leader and the followers has to be broken first, and rapport has to be built. I am fairly confident that the rapport between my peers and I is strong. There is trust, comfort and respect between us, and this will create and enhance our willingness to work together as a team despite the hardships and difficulties we will face.

I am also capable of working with different people and am willing to receive feedback offering different perspectives. I would listen to your concerns and act as your voice. This allows me to know the different aspects that my team and I should improve on and what should be initiated in the school. In other words, the executive committee will become the students' and teachers' avenue to voice their concerns about various aspects of school life — just like a bridge connecting the whole school together with their thoughts and opinions to make the school a better place for everyone.

There is a saying: leadership is not a position or a title; it is an action; it is to be an example. While position and title provide me with the potential and opportunity to lead, they do not make me a leader. Commitment and actions will prove that I am a leader. I dare to lead, and I will lead dutifully, diligently and fairly with perseverance, respect, responsibility, integrity, discipline and empathy. In short, I will lead with PRIDE.

I hope that I will be given this opportunity to lead and make a difference to our school. Together, we can make Peicai a safe and conducive environment to study in and to secure our future. Hence, please vote for me, and I promise that I will do my best in leading the school.

Thank you.
